# Explanatory Notes on the ELEMENT Handbook of Scales

## General Information

This handbook of scales documents the survey instruments used in the ELEMENT study (*Survey of Reading and Mathematics Comprehension – Developments in Grades 4 to 6 in Berlin*) commissioned by the Berlin Senate Administration for Education, Youth, and Sport in 2003 and conducted under the scholarly direction of Prof. Dr. Dr. Lehmann from the Humboldt University in Berlin. In three survey waves, developments in reading and mathematics comprehension were assessed at Berlin's primary and 10-plus grammar schools in 2003, 2004, and 2005. The present handbook of scales was created in late 2009/early 2010 by the Research Data Centre (Forschungsdatenzentrum, FDZ) at the Institute of Educational Improvement (Institut zur Qualitätsentwicklung im Bildungswesen, IQB) of the Humboldt University in Berlin. The documentation of the survey instruments is designed as an aid to working with the ELEMENT data sets provided by the FDZ at the IQB. Further information on the design, execution, and findings of the ELEMENT study can be found in the related research reports (see Lehmann & Nikolova 2005a and 2005b, Lehmann & Lenkeit 2008).

The document is divided into two main sections: Part 1 mainly documents the scales and variables for the subject-specific achievement tests. This section also contains descriptions of the identification variables and personal data on participation status (tracking variables) as well as documentation of the weight variables used in the data set. The second main section describes the instruments pertaining to factors of situational context and differentiates students' individual educational context, information on behaviour during leisure time and family background, and underlying school environments. The data sources were subject-specific achievement tests, student and parent questionnaires, and information from student records.

## Information on Documentation

Basic information on the survey waves (if known), variable name and label in the data set, data source (if known), and, where applicable, coding is available for every variable. Three documentation formats can further be differentiated:

**Single-item variables** – The "Factors of Situational Context" section, in particular, contains a series of single-item variables with mostly a categorical response format. The variable label contains the item wording; the response categories are presented, and any special characteristics are referred to under notes. The item analysis presents frequencies in percent for response categories and/or – with

continuous single-item variables – consolidates the maximum values at the upper interval limits (weighted mean) for intervals of frequency distribution (percentiles).

**Scales** – Within the "Factors of Situational Context" section, a number of working models are specified in the form of scales generated from separate questionnaire items in accordance with the hypotheses of classical test theory. Scale name and label, the items' variable name and associated label, coding information, number of items, and type of scaling are supplemented by the scale analysis: size of the measured sample, descriptive values for the separate items (mean, standard deviation, discrimination index) and the scales (mean, standard deviation), and information on reliability (Cronbach's alpha). Furthermore, items to be excluded from scaling on account of an insufficient discrimination index ( $r_{it} < .3$ ) and items whose polarity is to be reversed are indicated. All scale and item analyses are based on the first of the five available imputation data sets<sup>1</sup>.

**Performance scales** – The performance scores from the subject areas of German reading comprehension, German spelling, mathematics, and English are scaled applying the item response theory. The respective underlying metrics are stated in the documentation.<sup>2</sup> This also provides information on scale name and label, data source, and origin of the survey instruments, as well as the number of items to be worked through in the achievement tests. The scale analysis provides information on the sample size, descriptive parameters (mean, standard deviation, extreme values) and frequencies (weighted mean of percentiles).

The majority of the variable names contained in the data sets and documented here adhere to the following naming guidelines:

---

<sup>1</sup> SUF\_element\_imp1.sav

<sup>2</sup> The present data set provides only overall scores for each student and no separate raw scores for the performance tests.

<b>Position</b>	<b>Content</b>	<b>Category</b>	<b>Symbol</b>

## **Part I Subject Performance**

# 1 Tracking Variables

## Imputation

Variable name:	Imputation_
Variable label:	Imputation number
Notes:	An additional variable, <i>Imputation_</i> , was generated by the Research Data Centre at the Institute for Educational Progress which is not contained in the original ELEMENT data set and assigns a value of 1 to 5 to every imputation data set. This makes it possible to create a pooling data set in SPSS which distinguishes between the five imputation steps and can be used to output consolidated analyses.

### 1.1 *Identification Variables*

#### Student ID (FDZ)

Variable name:	ELEMENT 4:	ID_IQB
	ELEMENT 5:	ID_IQB
	ELEMENT 6:	ID_IQB
Variable label:	ELEMENT 4:	Person ID Scientific Use File IQB FDZ
	ELEMENT 5:	Person ID Scientific Use File IQB FDZ
	ELEMENT 6:	Person ID Scientific Use File IQB FDZ
Notes:	A further ID variable not present in the original ELEMENT data set was generated and assumes a value between 1001 and 5926. This makes it possible to uniquely identify each student in all five imputation data sets and, for example, where applicable create a pooling data set for further analyses.	

#### Student ID (Original)

Variable name:	ELEMENT 4:	Aprid
	ELEMENT 5:	Bprid
	ELEMENT 6:	Cprid
Variable label:	ELEMENT 4:	ID E4
	ELEMENT 5:	ID E5
	ELEMENT 6:	ID E6
Notes:	Initial student ID variable from the original ELEMENT data set	

**School ID (IQB-FDZ New)**

Variable name:	ELEMENT 4:	ApridsN
	ELEMENT 5:	BpridsN
	ELEMENT 6:	CpridsN
Variable label:	ELEMENT 4:	ID school E4 new
	ELEMENT 5:	ID school E5 new
	ELEMENT 6:	ID school E6 new
Notes:	A further school ID variable not present in the original ELEMENT data set was generated and assigns a value to each school.	

**Class ID (IQB-FDZ New)**

Variable name:	ELEMENT 4:	ApridklN
	ELEMENT 5:	BpridklN
	ELEMENT 6:	CpridklN
Variable label:	ELEMENT 4:	ID class E4 new
	ELEMENT 5:	ID class E5 new
	ELEMENT 6:	ID class E6 new
Notes:	A further class ID variable not present in the original ELEMENT data set was generated and assigns a value to each class. The class is represented by the final character; all preceding characters are identical to the matching school ID.	

## School District ID

Variable name:	ELEMENT 4:	Apridbz
	ELEMENT 5:	Bpridbz
	ELEMENT 6:	
Variable label:	ELEMENT 4:	ID district E4
	ELEMENT 5:	ID district E5
	ELEMENT 6:	
Notes:	Only a distinction by school location in East or West Berlin is available for ELEMENT 6 (see <i>Cprbzow</i> ).	
Coding:	Value	Value label
	1	Mitte
	2	Tiergarten
	3	Wedding
	4	Prenzlauer Berg
	5	Friedrichshain
	6	Kreuzberg
	7	Charlottenburg
	8	Spandau
	9	Wilmersdorf
	10	Zehlendorf
	11	Schöneberg
	12	Steglitz
	13	Tempelhof
	14	Neukölln
	15	Treptow
	16	Köpenick
	17	Lichtenberg
	18	Weißensee
	19	Pankow
	20	Reinickendorf
	21	Marzahn
	22	Hohenschönhausen
	23	Hellersdorf

## Item Analysis

Variable	1	2	3	4	5	6	7	8	9	10	11	12

## 1.3 Weighting and Standard Error Estimation

### Population Weights

Variable name:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Agewp Bgewp Cgewp
Variable label:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Population weight grade 4 Population weight grade 5 Population weight grade 6
Notes:	"Every student in the ELEMENT primary school sample represents a specific number of other students in the parent population. The ratio between the population and the sample in a given stratum (sub-group; here defined by districts) determines the probability that an individual will be part of the sample. The unequal sample probabilities in the schools, grades, and students surveyed can be accommodated with appropriate weighting. The primary school sample was weighted here such that the proportional number of actual student numbers at district level is retained." (Lehmann & Nikolova 2005a, p. 11)	

## Subject-Specific Weights

Variable name:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Agewles, Agewma, Agewrs
Variable label:	Agewles Agewma Agewrs	Population weight reading Population weight mathematics Population weight spelling

## Weighting by Grammar School Quota from Grade 7

Variable name:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Cgwp7GY
Variable label:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Sample weight by grammar school quota from Grade 7

## Senate Weight: District Comparison - Primary School Students

Variable name:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Agewsnls, Agewsnm, Agewsnrs
Variable label:	Agewsnls	Senate weight reading for district comparison (primary schools only)
	Agewsnm	Senate weight mathematics for district comparison (primary schools only)
	Agewsnrs	Senate weight spelling for district comparison (primary schools only)

Notes: "For the comparative analysis of the districts, a further weighting factor was calculated which enables the inclusion in the relevant analyses of all districts with the same weight, irrespective of the differing numbers of students at district level." (Lehmann & Nikolova 2005a, p. 11)

## House Weight: Subject-Specific

Variable name:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Agewhsl, Agewhsm, Agewhsrs
Variable label:	Agewhsl Agewhsm Agewhsrs	House weight reading House weight mathematics House weight spelling

### **Jackknife Repeated Replication: Jackknife Sampling Zone**

Variable label:	ELEMENT 4:	Jackzone Replication Weight E4
	ELEMENT 5:	Jackzone Replication Weight E5
	ELEMENT 6:	

## 2 German

### 2.1 *Reading Comprehension*

#### 2.1.1 Performance Scale

##### **Performance Scale: Reading Comprehension (ELEMENT-KESS Scale)**

Scale name:	ELEMENT 4:	Adl
	ELEMENT 5:	Bdl
	ELEMENT 6:	Cdl
Scale label:	ELEMENT 4:	WLEskala reading comprehension E4
	ELEMENT 5:	WLEskala reading comprehension E5
	ELEMENT 6:	WLEskala reading comprehension E6
Imputation name:	ELEMENT 4:	AdlZ
	ELEMENT 5:	BdlZ
	ELEMENT 6:	CdlZ
Imputation label:	ELEMENT 4:	WLEskala reading comprehension A imp
	ELEMENT 5:	WLEskala reading comprehension E5 imp
	ELEMENT 6:	WLEskala reading comprehension E6 imp
Details on and origin of instruments:	ELEMENT 4:	<p>Primary school students survey:            - 2 prose texts:            a. "Tonklumpen" (IGLU/PIRLS, Bos et al. 2003)            b. "Juan" (LAU 5, Lehmann, Gänsfuß &amp; Peek, 1999 originally HST4/5, Mietzel &amp; Willenberg 1999)</p> <p>- 1 factual text:            "Mücken" (LAU 5, Lehmann, Gänsfuß &amp; Peek, 1999 originally HST4/5, Mietzel &amp; Willenberg 1999)</p>
		<p>10-plus grammar school students survey:            1 prose text:            "Mäuse" (IGLU/PIRLS, Bos et al 2003)</p>
		<p>2 factual texts:            a. "Mücken" (LAU 5, Lehmann, Gänsfuß &amp; Peek, 1999 originally HST4/5, Mietzel &amp; Willenberg 1999)            b. "Flusswanderung" (IGLU/PIRLS, Bos et al. 2003)</p>

- ELEMENT 5: - 2 prose texts:  
 a. "Tonklumpen" (IGLU/PIRLS, Bos et al. 2003)  
 b. "Juan" (LAU 5, Lehmann, Gänsfuß & Peek, 1999 originally HST4/5, Mietzel & Willenberg 1999)
- 1 factual text:  
 "Mücken" (LAU 5, Lehmann, Gänsfuß & Peek, 1999 originally HST4/5, Mietzel & Willenberg 1999)
- 1 functional text:  
 "Leonardo" (IGLU/PIRLS, Bos et al. 2003)
- ELEMENT 6: 4 prose texts:  
 a. "Die Rache des Zauberers" (LAU 6+7, Lehmann, Gänsfuß & Peek 1999)  
 b. LAU 6+7 "Ich bin nicht blind" (LAU 6+7, Lehmann, Gänsfuß & Peek 1999)  
 c. LAU 6+7 "Anzeigen" (LAU 6+7, Lehmann, Gänsfuß & Peek 1999)  
 d. "Tonklumpen" (IGLU/PIRLS, Bos et al. 2003)
- 1 functional text:  
 "Leonardo" (IGLU/PIRLS, Bos et al. 2003)

Notes: For this scale, only the overall score and no individual raw scores are available for each student.

Number of items: ELEMENT 4: 24  
 ELEMENT 5: 32  
 ELEMENT 6: 37

Scaling: Item response theory (IRT) is used for scaling, with weighted likelihood estimates given as measuring values in the data set. The results are reported on a metric with a mean of 100 and a standard deviation of 15. (For more detailed information, see Lehmann & Nikolova 2005a, p. 16, Lehmann & Nikolova 2005b, p. 12, and Lehmann & Lenkeit 2008, p. 13)

### Scale Analysis

### 2.1.3 Anchors

#### Performance Scale: Anchoring Reading Comprehension to LAU (Aspects of Learning Background and Learning Development) (LAU-5 and LAU-7 Scale)

Scale name:	ELEMENT 4: Adllau5 ELEMENT 5: ELEMENT 6: Cdllau7
Scale label:	ELEMENT 4: Scale reading anchored to Lau5 ELEMENT 5: ELEMENT 6: Scale reading anchored to Lau7
Scaling:	"In addition to the ELEMENT-KESS scales, the so-called LAU-5 scales were developed for subject performance tests in [...] German reading comprehension. [...] The scale metric of the LAU-5 scales developed in ELEMENT for [...] reading comprehension was normalised such that the mean values of the Hamburg LAU 5 students are defined as 100 with a standard deviation of 25. These mean values and standard deviations were then used as reference values for normalising the ELEMENT and KESS scale values. This makes possible a direct comparison between the ELEMENT and LAU-5 student populations." (Lehmann & Nikolova 2005a, p. 16f)

Item response theory (IRT) is used for scaling, with weighted likelihood estimates given as measuring values in the data set.

#### Scale Analysis

Variable	$\bar{x}$	SD	min	max	N
Adllau5	110,45	21,94	16	176	4303
Cdllau7	113,33	20,00	10,70	189,53	4479

#### Frequencies

		Percentiles						
		5	10	25	50	75	90	95
Weighted mean	Adllau5	70,52	81,21	96,14	113,66	124,54	134,93	142,42
	Cdllau7	78,72	86,30	100,29	114,31	127,96	138,85	143,50

## Performance Scale: Anchoring Reading Comprehension to IGLU/PIRLS (IGLU Scale)

Scale name:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Adliglu
Scale label:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Scale reading anchored to IGLU
Scaling:	<p>"In addition to the ELEMENT KESS scales, the so-called IGLU scales were developed for subject performance tests in [...] German reading comprehension. [...] A comparison of Berlin student performance with achievement levels in other German Länder was similarly made possible [as with the LAU scales] by using IGLU items. On the basis of 13 of 14 reading tasks [...] from the national IGLU study, subsequent classification of the Berlin results on the IGLU scale metric was carried out." (Lehmann &amp; Nikolova 2005a, p. 16f)</p> <p>Item response theory (IRT) is used for scaling, with weighted likelihood estimates given as measuring values in the data set.</p>	

### Scale Analysis

Variable	$\bar{x}$	SD	min	max	N
Adliglu	531,10	64,87	323,06	711,20	2788

### Frequencies

	Percentiles						
	5	10	25	50	75	90	95
Weighted mean	407,97	444,60	497,11	536,69	572,46	605,27	627,05

## 2.2 Spelling

### 2.2.1 Performance Scale

#### Performance Scale: Spelling

Scale name:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Adr
Scale label:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	WLEskala spelling E4
Details on and origin of instruments:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Spelling test DoSE – Dortmunder Schriftkompetenz-Ermittlung (Löffler & Meyer Schepers 2001)
Notes:	For this scale, only the overall score and no individual raw scores are available for each student. (DOSE quantitative analysis: number of correctly spelt test words and number of single errors per test word; DOSE qualitative evaluation: number of correctly spelt test words).	
Number of items:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	19 sentences with 45 gaps
Scaling:	Only the ELEMENT primary school data set, within the framework of item response theory (IRT), is used for developing the scales, with weighted likelihood estimates given as measuring values in the data set. The results are reported on a metric with a mean of 100 and a standard deviation of 15. "The linear transformation of the person-related values at Berlin '10-plus' grammar schools was carried out in accordance with the relevant allocations." (Lehmann & Nikolova 2005a, p. 16)	

#### Scale Analysis

Variable	$\bar{x}$	SD	min	max	N
Adr	104,01	16,52	38,28	158,75	4308

#### Frequencies

	Percentiles						
	5	10	25	50	75	90	95
Weighted mean	79,16	84,32	92,98	102,13	114,97	124,74	130,27

### 3 Mathematics

#### 3.1 Performance Scale

##### Performance Scale: Mathematics

Scale name:	ELEMENT 4:	Ama

	Cmalau7	80,69	87,86	100,53	122,72	139,71	157,38	168,42

## Performance Scale: Anchoring Mathematics to IGLU (IGLU Scale)

Scale name:	ELEMENT 4: Amaiglu ELEMENT 5: ELEMENT 6:
Scale label:	ELEMENT 4: Scale mathematics anchored to IGLU ELEMENT 5: ELEMENT 6:
Scaling:	"In addition to the ELEMENT KESS scales, the so-called IGLU scales were developed for the subject performance tests in [...] mathematics. [...] A comparison of Berlin student performance with achievement levels in other German Länder was similarly made possible [as with the LAU scales] by using IGLU items. On the basis of the [...] 14 mathematics test items from the national IGLU study, subsequent classification of the Berlin results on the IGLU scale metric was carried out." (Lehmann & Nikolova 2005a, p. 16f)

Item response theory (IRT) is used for scaling, with weighted likelihood estimates given as measuring values in the data set.

### Scale Analysis

Variable	$\bar{x}$	SD	min	max	N
Amaiglu	295,14	57,92	58,84	512,91	2810

### Frequencies

	Percentiles						
	5	10	25	50	75	90	95
Weighted mean	200,15	227,51	250,95	293,07	336,44	362,09	395,01

## 4 English

### 4.1 Performance Scale

#### Performance Scale: English

Scale name:	ELEMENT 4: ELEMENT 5: ELEMENT 6:
Scale label:	ELEMENT 4: ELEMENT 5: ELEMENT 6:
Imputation name:	ELEMENT 4: ELEMENT 5: ELEMENT 6: CenZ
Imputation label:	ELEMENT 4: ELEMENT 5: ELEMENT 6: WLEskala English E6 imp
Details on and origin of instruments:	ELEMENT 4: ELEMENT 5: ELEMENT 6: 4 completion exercises (LAU, Lehmann, Gänßfuß & Peek, 1999): a. "Bauernhof" b. "Norfolk" c. "Radtour" d. "Zoo"
Notes:	For this scale, only the overall score and no individual raw scores are available for each student. The test covers the areas of reading comprehension, vocabulary, grammatical proficiency, and orthographic proficiency.
Number of items:	ELEMENT 4: ELEMENT 5: ELEMENT 6: 4 completion exercises with 91 word additions
Scaling:	Item response theory (IRT) is used for scaling, with weighted likelihood estimates given as measuring values in the data set. The results are reported on a metric with a mean of 100 and a standard deviation of 20.

### Scale Analysis

Variable	$\bar{x}$	SD	min	max	N
CenZ	102,08	21,05	23,31	184,76	4926

### Frequencies

	Percentiles						
	5	10	25	50	75	90	95
Weighted mean	69,09	75,32	87,27	101,70	116,74	129,11	135,83

## 4.2 Anchors

### Performance Scale: Anchoring English to LAU7 (LAU-7 Scale)

Scale name: ELEMENT 4:  
ELEMENT 5:  
ELEMENT 6: Cenwlau7  
Cenmlau7

Scale label: ELEMENT 4:  
ELEMENT 5:  
ELEMENT 6: WLEskala English anchored to Lau7  
MLEskala English anchored to Lau7

Scaling: "For the first time, achievement levels were also assessed in English in the third survey. Comparability with the results of the Hamburg LAU study was achieved by carrying over the difficulty parameters of 84 of the 91 text gaps to be completed in the Hamburg study." (Lehmann & Lenkeit 2008, p. 13)

Item response theory (IRT) is used for scaling, with weighted likelihood estimates (*Cenwlau7*) or maximum likelihood estimates (*Cenmlau7*) given as measuring values in the data set. The results are reported on a metric with a mean of 100 and a standard deviation of 20.

### Scale Analysis

Variable	$\bar{x}$	SD	min	max	N

## 5 General Subject Performance

### 5.1 Index

#### Performance Scale: General Subject Performance Index

Scale name:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Ainafi Ainafir  Cinafi Cinafir
Scale label:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	AFI general subject performance index end 4 D/M AFI general subject performance index end 4 D/M, rounded off  AFI general subject performance index end 6 D/M AFI general subject performance index end 6 D/M, rounded off
Notes:	<p>"Beyond the individual evaluation of the three test instruments used to assess subject performance, it is useful and possible to consolidate all the results of the sub-tests into a single test value. If the individual sub-tests are submitted to a correlation analysis, it can be seen that they are relatively strongly correlated with one another. The sub-tests are therefore not only valid as good indicators for a specific ability but are at the same time denotative of a general subject performance. The generation of an overall score is therefore empirically well-founded. [...] [As a result,] the [...] subject performance scales [...] are consolidated as a general subject performance index." (Lehmann &amp; Lenkeit 2008, p. 28f). For each measuring time, the values of the imputed performance scales for reading comprehension and mathematics enter into the calculation of the general subject performance index (AFI).</p>	
Scaling:	<p>"In generating the general subject performance index (AFI), the mean test scores in the subjects of German and mathematics are determined and projected onto a scale with a mean value of 100 and a standard deviation of 15. The initial values are first standardised using a so-called "z-transform". [see variables <i>AdlZZ</i>, <i>CdlZZ</i>, <i>AmaZZ</i>, and <i>CmaZZ</i>]" (Lehmann &amp; Lenkeit 2008, p. 28f)</p>	

#### Scale Analysis

Variable	$\bar{x}$	SD	min	max	N
Ainafi	102,82	14,36	57,29	150,57	4926
Ainafir	102,86	14,37	55,00	150,00	4926
Cinafi	118,04	14,36	54,28	172,44	4926
Cinafir	118,00	14,41	55,00	170,00	4926

#### Frequencies

		Percentiles						
		5	10	25	50	75	90	95
Weighted mean	Ainafi	78,26	83,63	93,11	103,50	113,15	120,68	124,50
	Ainafir	80,00	85,00	95,00	105,00	115,00	120,00	125,00
	Cinafi	94,39	98,66	107,32	118,58	128,37	136,27	140,63
	Cinafir	95,00	100,00	105,00	120,00	130,00	135,00	140,00

## 5.2 z-Transformations

Performance Scale: Reading Comprehension z-Transformation

Scale name: ELEMENT 4:

ELEMENT 6:

Data source: Student questionnaire

Coding	Value	Value label
0		Boys
1		Girls

**Item Analysis**

Variable	0	1	N
Asf0101	50,0	50,0	4422

### 1.1.2 Age

#### Age

Variable name:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Apralt Bpralt
Variable label:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Age E4 Age E5
Data source:	n/a	
Notes:		Statement of years and months in figures (format: YY,M)

#### Item Analysis

Variable	$\bar{x}$	SD	min	max	N
Apralt	10,54	0,53	8,3	13,7	4440
Bpralt	11,48	0,55	9,2	14,7	4719

#### Frequencies

		Percentiles						
		5	10	25	50	75	90	95
Weighted mean	Apralt	9,83	10,0	10,17	10,50	10,83	11,17	11,50
	Bpralt	10,75	10,92	11,08	11,41	11,75	12,08	12,58

## Month of Birth

Variable name:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Aprgm
Variable label:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Month of birth E4
Data source:	n/a	
Notes:		<i>Aprgm</i> corresponds to the data of <i>Asf0201</i> but exhibits fewer missing values ( <i>Aprgm</i> : 1; <i>Asf0201</i> : 929).
		Statement of months in number format (e.g. January = 1 etc.)

## Item Analysis

Variable	1	2	3	4	5	6	7	8	9	10	11	12	N
Aprgm	8,9	7,2	8,6	8,1	7,7	7,3	8,6	9,7	9,6	8,2	8,3	7,7	4925

## Month of Birth (Student Statements)

Variable name:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Asf0201
Variable label:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Month of birth E4
Data source:	n/a	Student questionnaire
Notes:		Statement of month in number format (e.g. January = 1 etc.)

## Item Analysis

Variable	1	2	3	4	5	6	7	8	9	10	11	12	N
Asf0201	9,1	7,5	8,2	7,8	7,6	7,4	8,3	9,4	9,7	8,6	8,4	8,1	3997

## Year of Birth

Variable name:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Aprgj
Variable label:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Year of birth E4
Data source:	n/a	
Notes:		<i>Aprgj</i> corresponds to the data of <i>Asf0202</i> but exhibits fewer missing values ( <i>Aprgj</i> : 444; <i>Asf0202</i> : 961).
		Statement of year as two digits (format: YY)

## Item Analysis

Variable	$\bar{x}$	SD	min	max	N
Aprgj	92,41	0,63	89	95	4482

## Frequencies

	Percentiles

### 1.3.4 Report Grades

#### Report Grade – 2nd Half-Term: German Overall

Variable name:	ELEMENT 4:	Anotdt
	ELEMENT 5:	Bnotdt
	ELEMENT 6:	Cnotdt
Variable label:	ELEMENT 4:	Grade German overall E4
	ELEMENT 5:	Grade German overall E5
	ELEMENT 6:	Grade German overall E6
Imputation name:	ELEMENT 4:	
	ELEMENT 5:	
	ELEMENT 6:	CnotdtZ
Imputation label:	ELEMENT 4:	
	ELEMENT 5:	
	ELEMENT 6:	Grade German overall E6 imp
Data source:	Student records	
Notes:	The following are each grades at the end of the school year.	
	Grades from 1 ('very good') to 6 ('fail') in integers.	

#### Report Grade – 2nd Half-Term: German Oral

Variable name:	ELEMENT 4:	Anotdmdl
	ELEMENT 5:	Bnotdmdl
	ELEMENT 6:	Cnotdmdl
Variable label:	ELEMENT 4:	Grade German oral E4
	ELEMENT 5:	Grade German oral E5
	ELEMENT 6:	Grade German oral E6
Imputation name:	ELEMENT 4:	
	ELEMENT 5:	
	ELEMENT 6:	CnotdmdlZ
Imputation label:	ELEMENT 4:	
	ELEMENT 5:	
	ELEMENT 6:	Grade German oral E6 imp
Data source:	Student records	
Notes:	Grades from 1 ('very good') to 6 ('fail') in integers.	

**Report Grade – 2nd Half-Term: German Spelling**

Variable name:	ELEMENT 4:	Anotrs
	ELEMENT 5:	Bnotrs
	ELEMENT 6:	Cnotrs
Variable label:	ELEMENT 4:	Grade German spelling E4
	ELEMENT 5:	Grade German spelling E5
	ELEMENT 6:	Grade German spelling E6
Imputation name:	ELEMENT 4:

	ELEMENT 6:	CnotrsZ
Imputation label:	ELEMENT 4:	
	ELEMENT 5:	
	ELEMENT 6:	Grade German spelling E6 imp
Data source:	Student records	
Notes:	Grades from 1 ('very good') to 6 ('fail') in integers.	

**Report Grade – 2nd Half-Term: German Text Writing**

Variable name:	ELEMENT 4:	AnottXt
	ELEMENT 5:	BnottXt
	ELEMENT 6:	CnottXt
Variable label:	ELEMENT 4:	Grade German text writing E4
	ELEMENT 5:	Grade German text writing E5
	ELEMENT 6:	Grade German text writing E6
Imputation name:	ELEMENT 4:	
	ELEMENT 5:	
	ELEMENT 6:	CnottXtZ
Imputation label:	ELEMENT 4:	
	ELEMENT 5:	
	ELEMENT 6:	Grade German text writing E6 imp
Data source:	Student records	
Notes:	Grades from 1 ('very good') to 6 ('fail') in integers .	

**Report Grade – 2nd Half-Term: German Reading**

Variable name:	ELEMENT 4:	Anotdles
	ELEMENT 5:	Bnotdles
	ELEMENT 6:	Cnotdles
Variable label:	ELEMENT 4:	Grade German reading E4
	ELEMENT 5:	Grade German reading E5
	ELEMENT 6:	Grade German reading E6
Imputation name:	ELEMENT 4:	
	ELEMENT 5:	
	ELEMENT 6:	CnotlesZ
Imputation label:	ELEMENT 4:	
	ELEMENT 5:	
	ELEMENT 6:	Grade German reading E6 imp
Data source:	Student records	
Notes:	Grades from 1 ('very good') to 6 ('fail') in integers	

**Report Grade – 2nd Half-Term: Mathematics**

Variable name:	ELEMENT 4:	Anotma
	ELEMENT 5:	Bnotma
	ELEMENT 6:	Cnotma
Variable label:	ELEMENT 4:	Grade mathematics E4
	ELEMENT 5:	Grade mathematics E5
	ELEMENT 6:	Grade mathematics E6
Imputation name:	ELEMENT 4:	
	ELEMENT 5:	
	ELEMENT 6:	CnotmaZ
Imputation label:	ELEMENT 4:	
	ELEMENT 5:	
	ELEMENT 6:	Grade mathematics E6 imp
Data source:	Student records	
Notes:	Grades from 1 ('very good') to 6 ('fail') in integers.	

**Report Grade – 2nd Half-Term: Art classes**

Variable name:	ELEMENT 4:	Anotbk
	ELEMENT 5:	Bnotbk
	ELEMENT 6:	Cnotbk
Variable label:	ELEMENT 4:	Grade art E4
	ELEMENT 5:	Grade art E5
	ELEMENT 6:	Grade art E6
Data source:	Student records	
Notes:	Grades from 1 ('very good') to 6 ('fail') in integers.	

**Report Grade – 2nd Half-Term: Biology**

Variable name:	ELEMENT 4:	
	ELEMENT 5:	
	ELEMENT 6:	Cnotbio
Variable label:	ELEMENT 4:	
	ELEMENT 5:	
	ELEMENT 6:	Grade biology E6
Imputation name:	ELEMENT 4:	
	ELEMENT 5:	
	ELEMENT 6:	CnotbioZ
Imputation label:	ELEMENT 4:	
	ELEMENT 5:	
	ELEMENT 6:	Grade biology E6 imp
Data source:	Student records	
Notes:	Grades from 1 ('very good') to 6 ('fail') in integers.	

**Report Grade – 2nd Half-Term: Musical education**

Variable name:	ELEMENT 4:	Anotmu
	ELEMENT 5:	Bnotmu
	ELEMENT 6:	Cnotmu
Variable label:	ELEMENT 4:	Grade music E4
	ELEMENT 5:	Grade music E5
	ELEMENT 6:	Grade music E6
Data source:	Student records	
Notes:	Grades from 1 ('very good') to 6 ('fail') in integers.	

## Report Grade – 2nd Half-Term: Physical Education

Variable name:	ELEMENT 4:	Anotspo
	ELEMENT 5:	Bnotspo
	ELEMENT 6:	Cnotspo
Variable label:	ELEMENT 4:	Grade physical education E4
	ELEMENT 5:	Grade physical education E5
	ELEMENT 6:	Grade physical education E6
Data source:	Student records	
Notes:	Grades from 1 ('very good') to 6 ('fail') in integers.	

## Report Grade – 2nd Half-Term: Social Studies

Variable name:	ELEMENT 4:	Anotsk
	ELEMENT 5:	
	ELEMENT 6:	
Variable label:	ELEMENT 4:	Grade social studies E4
	ELEMENT 5:	
	ELEMENT 6:	
Data source:	Student records	
Notes:	Grades from 1 ('very good') to 6 ('fail') in integers	

## Report Grade – 2nd Half-Term: Geography

Variable name:	ELEMENT 4:	
	ELEMENT 5:	
	ELEMENT 6:	Cnotek
Variable label:	ELEMENT 4:	
	ELEMENT 5:	
	ELEMENT 6:	Grade geography E6
Imputation name:	ELEMENT 4:	
	ELEMENT 5:	
	ELEMENT 6:	CnotekZ
Imputation label:	ELEMENT 4:	
	ELEMENT 5:	
	ELEMENT 6:	Grade geography E6 imp
Data source:	Student records	
Notes:	Grades from 1 ('very good') to 6 ('fail') in integers.	

**Report Grade – 2nd Half-Term: History**

Variable name: ELEMENT 4:  
ELEMENT 5:  
ELEMENT 6: Cnotge

Variable label: ELEMENT 4:  
ELEMENT 5:  
ELEMENT 6: Grade history E6

Imputation name: ELEMENT 4:  
ELEMENT 5:  
ELEMENT 6: CnotgeZ

Imputation label: ELEMENT 4:  
ELEMENT 5:  
ELEMENT 6: Grade history E6 imp

Data source: Student records

Notes: Grades from 1 ('very good') to 6 ('fail') in integers.

**Report Grade – 2nd Half-Term: 1st Foreign Language**

Variable name: ELEMENT 4:  
ELEMENT 5:  
ELEMENT 6: Cnot1fs

Variable label: ELEMENT 4:  
ELEMENT 5:  
ELEMENT 6: Grade 1st foreign language E6

Imputation name: ELEMENT 4:  
ELEMENT 5:  
ELEMENT 6: Cnot1fsZ

Imputation label: ELEMENT 4:  
ELEMENT 5:  
ELEMENT 6: Grade 1st foreign language E6 imp

Data source: Student records

Notes: Grades from 1 ('very good') to 6 ('fail') in integers.

**Report Grade – 2nd Half-Term: 2nd Foreign Language**

Variable name: ELEMENT 4:  
ELEMENT 5:  
ELEMENT 6: Cnot2fs

Variable label: ELEMENT 4:  
ELEMENT 5:  
ELEMENT 6: Grade 2nd foreign language E6

Imputation name: ELEMENT 4:  
ELEMENT 5:  
ELEMENT 6: Cnot2fsZ

Imputation label: ELEMENT 4:  
ELEMENT 5:  
ELEMENT 6: Grade 2nd foreign language E6 imp

Data source: Student records

Notes: Grades from 1 ('very good') to 6 ('fail') in integers.

**Report Grade – 2nd Half-Term: Mean Grade**

Variable name: ELEMENT 4: Anotds  
ELEMENT 5:  
ELEMENT 6:

Variable label: ELEMENT 4: Mean grade year 4  
ELEMENT 5:  
ELEMENT 6:

Data source: Student records

Notes: Grades from 1 ('very good') to 6 ('fail') in integers

### 1.3.5 Educational Aspirations

#### Intended School-Leaving Qualification (Parent Statements)

Variable name:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Cef0101
Variable label:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	What school-leaving qualification should child achieve?
Data source:	Parent questionnaire	
Coding:	Value 1 2 3 4 5	Value label Lower secondary school-leaving certificate Extended lower secondary school-leaving certificate Intermediate secondary school-leaving certificate Abitur (university entry qualification) Not yet certain

#### Item Analysis

Variable	1	2	3	4	5	N
Cef0101	1,1	1,9	16,2	74,2	6,6	2439

#### Attempted Enrolment at 10-Plus Grammar School (Parent Statements)

Variable name:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Cef0201
Variable label:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Did you try to enrol your child at a grammar school at the end of grade 4?
Data source:	Parent questionnaire	
Notes:	Only to be answered by parents of primary school students.	
Coding:	Value 0 1	Value label No Yes

#### Item Analysis

Variable	0	1	N
Cef0201	83,6	16,4	4013

## Type of School from Grade 7 (Parent Statements)

Variable name: ELEMENT 4:

Imputation label:	ELEMENT 4:	HISEI Index (highest social status) imp
	ELEMENT 5:	
	ELEMENT 6:	
Literature:	PISA 2000	
Data source:	Parent questionnaire	
Notes:	<p>"Information on [...] the current occupation or most recent occupation collected in ELEMENT, was used to determine [...] indicators for the children's socio-economic background: [...] the International Socio-Economic Index of Occupational Status (ISEI) after the occupational classification index by Ganzeboom, De Graaf, and Treiman (1996). The occupations of the parents were encoded in line with the International Standard Classification of Occupations ISCO-88 to produce the International Socio-Economic Index. For the design of the ISEI scale, the occupations were grouped and hierarchically ordered by aspects of duration of training, income, and social occupational prestige. The HISEI, the index for the highest occupational status of the family, was produced from the data for both parents and was also used in the international PISA report. The ISEI/HISEI variables resulting from the recording of the three-digit occupational sub-groups from ISCO-88 exhibit a minimum of 16 and a maximum of 85: a higher value corresponds to a higher socio-economic status. Data on family background was collected in ELEMENT via the parents' questionnaire which was completed voluntarily ." (ELEMENT 4 report, p. 33f)</p>	

### Item Analysis

Variable	$\bar{x}$	SD	min	max	N
Ainhise	53,80	16,23	16	85	3423

Variable label:	Asf2603* Asf2604* Asf2703 Asf2704 Asf2804* Asf2805*  Bsf2501* Bsf2502* Bsf2503* Bsf2504* Bsf2505* Bsf2506* Bsf2507*	Our maths teacher - speaks loudly and clearly so that you can easily understand him/ her. Our maths teacher - speaks clearly and intelligibly. Maths lessons: too much material is repeated, so we move on very slowly. Maths lessons: our teacher moves through the material so slowly that it's boring. Maths lessons: our teacher chooses very interesting topics. Maths lessons: we always know exactly what we have to do.  Our maths teacher - speaks clearly and intelligibly. Our maths teacher - says what we will be covering at the start of the lesson. Our maths teacher - takes the time to explain things to individual students who haven't understood them. Our maths teacher - makes an effort to ensure that everyone keeps up. Our maths teacher - knows how to get the students really interested in the material. Our maths teacher - explains the material again and again until everyone has correctly understood it. Our maths teacher - steps in immediately if we become restless.

Bsf2508*	Our maths teacher - keeps a close eye to ensure that we pay attention.
Bsf2509*	Our maths teacher - can adapt well to our class.
Bsf2510*	Our maths teacher - gives individual students tips on how to learn better.
Bsf2511*	Our maths teacher - also praises the weak students when he sees them improving.
Bsf2512*	Our maths teacher - realises when the lessons are too hard.
Bsf2513	Our maths teacher - moves on with the teaching, even if no-one can keep up.
Bsf2514*	Our maths teacher - summarises the material so that we can all easily remember it.
Bsf2515*	Our maths teacher - knows the strengths and weakness of individual students.
Bsf2516*	Our maths teacher - gives students tasks of varying difficulty, depending on how good they are.
Bsf2517*	Our maths teacher - marks our homework.
Bsf2518*	Our maths teacher - discusses our homework with us.
Csf1101*	Maths teacher was satisfied with me.
Csf1102*	Maths teacher assessed me fairly.
Csf1103*	Maths teacher gave me the help I needed.
Csf1104*	Maths teacher explain teaching material very well.
Csf1105	Maths teacher provided too few examples.
Csf1106	Maths teacher rarely responded to our questions.
Csf1108*	Maths teacher took enough time out for me.
Csf1109*	Maths teacher designed the teaching in a varied way.
Csf1110	Maths teacher repeated important things far too rarely.
Csf1111*	Maths teacher makes sure that we keep our books and folders in good order.
Csf1115*	Our maths teacher takes the time to explain things to individual students who haven't understood them.
Csf1116*	Our maths teacher makes an effort to ensure that everyone keeps up.
Csf1117*	Our maths teacher keeps a close eye to ensure that we pay attention.
Csf1120*	Our maths teacher knows how to get us really interested in the material.
The following items were excluded from the scaling:	
Asf2806*	Maths lessons: our teacher steps in immediately if somebody starts becoming disruptive.
Bsf2519	Our maths teacher - repeats too much material, so we move on very slowly.
Bsf2520	Our maths teacher - moves through the material so slowly that it's boring.
Csf1119*	Maths teacher gives students tasks of varying difficulty, depending on how good they are.

1 Yes

### ***Item Analysis***

Variable	0	1	N
Bsf0303	83,6	16,4	4011
Csf0203	87,0	13,0	3850

### ***Study Group***

Variable name:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Bsf0304 Csf0204
Variable label:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Do you attend - a study group outside school? Do you attend - a study group outside school?
Data source:	Student questionnaire	
Coding:	Value 0 1	Value label No Yes

### ***Item Analysis***

Variable	0	1	N
Bsf0304	64,9	35,1	4010
Csf0204	73,6	26,4	3848

### ***Private Tuition***

Variable name:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Bsf0305 Csf0205
Variable label:	ELEMENT 4: ELEMENT 5: ELEMENT 6:	Do you attend - private tuition courses? Do you attend - private tuition courses?
Data source:	Student questionnaire	
Coding:	Value 0 1	Value label No Yes

### ***Item Analysis***

Variable	0	1	N
Bsf0305	83,2	16,7	3974
Csf0205	82,6	17,4	3822

***Other Course***

Variable name: ELEMENT 4:  
ELEMENT 5: Bsf0306  
ELEMENT 6: Csf0206

Variable label: ELEMENT 4:  
ELEMENT 5: Do you attend - another course?  
ELEMENT 6: Do you attend - another course?

Data source: Student questionnaire

Notes: This variable has an open-response format in the questionnaire. Only the entries yes or no are contained in the data set.

Coding:

	Value	Value label
0		No
1		Yes

**Item Analysis**

Variable	0	1	N
Bsf0306	24,8	75,2	1176
Csf0206	89,6	10,4	4016

### 4.2.3 Reading

#### ***Reading Habits***

Scale name:	ELEMENT 4:	AskalgN
	ELEMENT 5:	BskalgN
	ELEMENT 6:	
Scale label:	ELEMENT 4:	Reading habits E4 new
	ELEMENT 5:	Reading habits E5 new
	ELEMENT 6:	
Data source:	Student questionnaire	
Number of items:	ELEMENT 4:	5
	ELEMENT 5:	5
	ELEMENT 6:	
Notes:	High values represent frequent reading activities. Items whose polarity is to be reversed for scaling are marked with a *.	
Coding:	Value	Value label
	1	Every day or almost every day
	2	Once or twice a week
	3	Once or twice a month
	4	Never or almost never
Scaling:		
Items		
Variable name:	ELEMENT 4:	Asf0601 – Asf0605
	ELEMENT 5:	Bsf0301 – Bsf0304, Bsf0306 – Bsf0308
	ELEMENT 6:	
Variable label:	Asf0601*	Outside school, how often do you - read something out to somebody?
	Asf0602*	Outside school, how often do you - talk to friends about what you have read?
	Asf0603*	Outside school, how often do you - discuss what you have read with your family?
	Asf0604*	Outside school, how often do you - read because you enjoy it?
	Asf0605*	Outside school, how often do you - read to find out about things you would like to learn?
	Bsf0201*	How often - do you read something out to somebody?
	Bsf0202*	How often - do you talk to friends about what you have read?
	Bsf0203*	How often - do you discuss what you have read with your family?
	Bsf0205*	How often - do you read with your parents?
	Bsf0206*	How often - do you read in German?
	Bsf0207*	How often - do you read before going to sleep?
	Bsf0208*	How often - do your parents/other persons read something out to you?
The following items were excluded from the scaling:		
Asf0606*	Outside school, how often do you - read in a language other than German?	
Bsf0204*	How often - do you read in a language other than German?	

### Scale Analysis

ELEMENT 4				ELEMENT 5				ELEMENT 6			
Variable	$\bar{x}$	SD	$r_{it}$	Variable	$\bar{x}$	SD	$r_{it}$	Variable	$\bar{x}$	SD	$r_{it}$
