

## At Work

Transkript:

My workplace is sometimes in the office doing paper work but mainly out on the streets. The main part of my job is to protect citizens and when someone needs help they call us and we go out and help them.

One of the hard things about my job is enforcing the laws and fighting against crime.

We also have certain equipment that we use, for example, radios, a handgun and handcuffs. My favourite thing about my job is helping children.
