

Emergency

Transkript:

Dispatcher: 911 emergency, how may I help you?

Caller: Hi, I'm on highway 1, exit 5, mile marker 26. There's been an accident out here.

Dispatcher: I see. Okay, sir, how many cars are involved?

Caller: Oh, from what I can tell, it's only two cars and four people. There's a guy who pulled out someone from the car and is giving first aid at the side of the road. One of the cars is on fire.

Dispatcher: Alright. So, I'll contact the fire department for you. The police is already on its way, sir. Is there any more information you could give me?

Caller: Well, Yeah. How far do you think the ambulance is, 'cause we'll need an ambulance out here.

Dispatcher: The ambulance should be with you soon, sir.

Caller: Okay, that'll do. We'll continue to give first aid and just wait for the ambulance to arrive, then.

Dispatcher: Okay, sir, thank you very much for calling. Bye.

Position: 1. How many cars are involved in the accident?

RICHTIG	<ul style="list-style-type: none"> • 2/two (cars) <p>Unterschiedliche Schreibweisen der gesuchten Zahl (Ziffer oder ausgeschrieben) werden akzeptiert.</p>
